
COA of recombinant Feline panleukopenia virus VP2 protein

Product Code: P0308-03-01

Lot No.:

Source: recombinant expression

Form: liquid

Buffer: sterile 1×PBS (pH7.4),0.1%Preservatives I

Concentration: mg/mL

Immunoreactivity: Reaction with monoclonal antibodies specific to FPV molecule.

Applications: Diagnostic antigen for detection of Anti-FPV antibodies.

Storage: 2-8°C for frequent usage, -20±10°C for two years. Avoid repeated freeze-thaw cycles.

Tips: The samples usually form an inhomogeneous state after freezing and thawing. Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.
