

## COA of recombinant human GDF-15

**Product Code:** B0211-04-01

**Lot No.:** 20250616

**Source:** recombinant expression

**Form:** liquid

**Buffer:** sterile 1×PBS (pH7.4), 0.1%Preservatives I

**Concentration:** 0.64mg/mL(determined by A280)

**Description:** Recombinant Human GDF15 reaction with monoclonal/polyclonal antibodies specific to human GDF-15 molecule.It's produced by our Mammalian expression system and expressed with a HSA, 6His tag at the N-terminus.

**Applications:** calibrator in immunoassays, in vitro studies

**Storage:** 2-8°C for frequent usage,  $-20 \pm 10^{\circ}\text{C}$  for 4years. Avoid repeated freeze-thaw cycles.

**Tips:** The samples usually form an inhomogeneous state after freezing and thawing. Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.

**Precaution:** The products and pre-frozen biological ice packs are packaged in an EPS transportation box and delivered by regular express, and they must arrive within 72 hours.
