| Lot No.:               | 20230908                                                                                                                                                           |
| Source:                | Ascites                                                                                                                                                            |
| Host Animal:           | Mouse                                                                                                                                                              |
| Molecular Weight:      | 150kD                                                                                                                                                              |
| Product Appearance:    | Purified, Liquid                                                                                                                                                   |
| Product Form:          | Produced by affinity chromatography (rPA) in vitro, with 0.02M PBS (pH7.4, containing 0.1% Preservatives I ) as preservative buffer                                |
| Protein Concentration: | 4.47mg/mL (Ultraviolet spectrophotometry)                                                                                                                          |
| Purity:                | >95% (SDS-PAGE)                                                                                                                                                    |
| Storage:               | Store at -20±10°C for four years<br>Store at 2-8°C for one month<br>The product is for vitro use only.                                                             |
| Precaution:            | The products and pre-frozen biological ice packs are packaged in an EPS transportation box and delivered by regular express, and they must arrive within 72 hours. |
