

Certificate Of Analysis

Manufacturer:	Auker Biotech Co.,Ltd.
Product Name:	Recombinant hepatitis B Core Antigen
Tag Name :	HBcAg recombinant protein
Product Code:	B0002
Lot No.:	20250429
Expression:	E.coli
Product Appearance:	Purified, Liquid
Product Form:	Produced by Combination Chromatography Purification in vitro, with 50mM PB (PH7.4, containing 0.1% Preservatives I)as preservative buffer
Molecular weight:	Monosubunit,20kD;Polyglobular structure,~2200kD.
Protein Concentration:	4mg/mL (Ultraviolet spectrophotometry)
Tips:	This antigen is a recombinant hepatitis B virus core protein, which is a polyglobular structure, and can effectively capture the anti HBcAg antibody in the sample to be tested. It has excellent specificity, sensitivity and stability.
Storage:	Store at 2-8°C for one year
Purpose:	It is suitable for direct coating of neutralization competition method, indirect method and double antigen sandwich method.

Attentions:

1. This product is only used for scientific research, not for human experiment or human treatment;
2. In order to obtain the best result of the experiment, please adjust the concentration and process according to the actual situation.
- 3.The products and pre-frozen biological ice packs are packaged in an EPS transportation box and delivered by regular express, and they must arrive within 72 hours.
