
COA of Recombinant human Immunoglobulin E (IgE)

Product Code: BA1415

Lot No.: 20250807

Source: Human IgE monoclonal antibody (mAb) is a chimeric monoclonal antibody recombinantly expressed from HEK293 cells, which combines the variable region of a mouse monoclonal antibody with immunoglobulin heavy constant epsilon. The mouse monoclonal antibody was obtained from a mouse immunized with recombinant Protein.

Form: liquid

Buffer: 1*PBS(pH7.4),2%BSA,2%TritonX-100,0.1%Preservatives I

Concentration:3mg/mL(determined by A280)

Interactivity: reaction with anti-human IgE antibodies

Applications: calibrator in immunoassays, in vitro studies

Storage: 2-8°C for frequent usage, -20±10°C for long-term storage. Avoid repeated freeze-thaw cycles.

Precaution: The products and pre-frozen biological ice packs are packaged in an EPS transportation box and delivered by regular express, and they must arrive within 72 hours.
