

COA of Human anti-recombinant β 2-GP1 Antibody

Product Code: BA1402

Lot No.: 20230605

Source: Human anti-recombinant β 2-GP1 Antibody, Chimeric mAb, Human IgG1 is a chimeric monoclonal antibody recombinantly expressed from HEK293 cells, which combines the variable region of a mouse monoclonal antibody with human IgG1 constant domain. The mouse monoclonal antibody was obtained from a mouse immunized with recombinant β 2-GP1 Protein. This chimeric antibody is purified by Protein A affinity chromatography.

Form: liquid

Isotype: Human IgG1/kappa

Buffer: 1×PBS (pH7.4), 0.1% preservatives I

Concentration: 3.84mg/mL (determined by A280)

Interactivity: reaction with human β 2-GP1 protein

Applications: enzyme linked immunosorbent assay

Storage: 2-8°C for frequent usage, -20 ± 10°C for long-term storage. Avoid repeated freeze-thaw cycles.

Precaution: The products and pre-frozen biological ice packs are packaged in an EPS transportation box and delivered by regular express, and they must arrive within 72 hours.
